With the Spring Capacity Building Grant cycle right around the corner, it is the perfect time to reflect on activities that increase sustainable endowment building and growth. Last year, ICoF supported two CFs with staff-like support for affiliate growth. In their recent grant reports they shared their success:

[Davis County Community Foundation](#), an affiliate of the Community Foundation of Greater Des Moines, received a grant to offset their development director's time. During the grant year, she was able to make personal contacts with more than 50 people and organizations and received \$700,000 in donations to the CF. They also created five new endowments. The director also met with at least one city/group from each town in the county.

The [Dyersville Area Community Foundation](#), an affiliate of the Community Foundation of Greater Dubuque, used their grant to support time for their director to research donor patterns from the last several years, as well as nonprofit grantees who do not currently hold an endowment fund at DACF. Funding also allowed the director to meet with donors, nonprofits and professional advisors, and to present at a community event. This led to an increase of \$98,000 in the DACF endowed fund in 2021.
